FARMERS HAVE ADOPTED

Wise, Va., March 26.—As a result of the organization of the Wise Farmers (10tb, three cars of lime and a twenty-five-ton car of fertilizer have been shipped in this week, ordered cooperatively by the farmers through their secretary, R. L. Kilgore.

The direct saving on a twenty-five-ton car of fertilizer amounts to \$160 to \$150, the money that the middle man would otherwise get. The chief saving to the farmers rests in the fact that they get their goods in good condition, without the tearing of sacks and other loss caused in the extra handing by the retailer, and they can buy high-grade fertilizers that are adapted to their land and crops by conferring with the farm demonstrator, J. C. Stiles, who attends all club meetings and visits the farmers to further improve methods. They will also undertake the buying of farm implements and seeds on the co-operative plan. The buying of clover seed, grass and peas should largely replace the fertilizers and improve the farms permanently. CO-OPERTIVE BUYING tilizers and improve the farms perma-
